SUMMARY

Frontend Engineer with experience on building and modernizing enterprise SaaS applications using React, TypeScript, Next.js, and modern frontend tooling. Experienced in legacy modernization, design systems, testing strategies, real-time systems, and cross-functional collaboration across product, design, and backend teams.

EXPERIENCE

Foothill Technology Solutions

Frontend Engineer

May 2024 – Present
Hybrid | Nablus, Palestine

- Took ownership of frontend implementation across workforce management initiatives within R365's React and TypeScript SaaS platform.
- Modernized and extended an 8+ year legacy codebase, delivering new functionality while supporting ongoing migration toward newer platform architecture and design standards.
- Built shared frontend infrastructure and reusable solutions adopted across multiple teams, helping standardize development patterns and support platform modernization efforts.
- Introduced SignalR-driven synchronization into Cypress testing, replacing time-based waits with event-driven execution to improve test reliability and maintainability.
- Worked closely with product managers, designers, and backend engineers to shape requirements, align technical solutions, and deliver features from planning through release.

Upwork

Freelance Frontend Developer

Oct 2022 – Present
Remote

- Built and deployed web applications for international clients using React, Next.js, Node.js, and Firebase, taking projects from requirements gathering through launch.
- Built custom solutions ranging from business tools and platform integrations to responsive websites and productivity-focused applications.
- Worked directly with clients throughout the project lifecycle, translating requirements into maintainable solutions and adapting quickly to evolving needs.

Foothill Technology Solutions

Frontend Intern

Mar 2023 – Jul 2023
Hybrid | Nablus, Palestine

- Built a production-grade Point of Sale (POS) system using React, TypeScript, Node.js, Express, and MongoDB.
- Collaborated with senior developers to review architectural decisions, improve performance, and refine user experience.

EDUCATION

Bachelor's in Computer Engineering

An-Najah National University
Sep 2019 – Jul 2024

LANGUAGES

- **Arabic** – Native
- **English** – Advanced
- **German** – Beginner

SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript, Material UI (MUI), TailwindCSS.
- **State Management:** Redux, Redux Saga, React Query, GraphQL, REST APIs, SignalR.
- **Testing:** Cypress, Jest, Vitest, React Testing Library.
- **Architecture:** Micro Frontends, Monorepos (Nx), Design Systems.
- **Development Workflow:** Git, CI/CD, Agile Development.
- **AI-Assisted Development:** Claude Code, Codex, MCPs, Workflows, Context Engineering.
