SUMMARY

Frontend Engineer with hands-on experience building scalable, production-grade web applications using React, React Native, and Next.js.

Experienced in component-based and micro frontend architectures, collaborating with product and backend teams, and improving performance, accessibility, and UX in complex systems.

EXPERIENCE

Foothill Technology Solutions – Frontend Engineer

May 2024 – present | Nablus, Palestine | [link](#)

- Built and maintained data-heavy frontend features using **React** and **TypeScript**, improving performance and ensuring a scalable architecture.
- Contributed to modernizing legacy code and shared design system, including introducing **adapters** to standardize dates handling across the system.
- Improved quality and reliability by using **Cypress** for e2e and **Jest** for unit/integration tests, and introduced coverage for background updates features using **SignalR**.
- Used AI-assisted development workflows to speed up development, debug complex issues, and experiment with AI-driven features and developer tooling.

Upwork – Freelance Frontend Developer

Oct 2022 – present | Remote | [link](#)

- Delivered client-facing web applications using **React**, **Next.js**, and **Firebase**, taking projects from requirements to deployment.
- Built responsive, production-ready UIs and integrated **REST APIs**, with some exposure to **GraphQL** for structured data fetching.
- Worked directly with clients to clarify requirements, iterate on feedback, and deliver maintainable solutions.

Foothill Technology Solutions – Frontend Internship

Mar 2023 – Jul 2023 | Nablus, Palestine | [link](#)

- Built a production-grade **Point of Sale (POS)** system using React, implementing product search, cart logic, pricing calculations, and real-time UI updates.
- Structured the application with clean component architecture and state management, focusing on scalability and maintainability.
- Collaborated with senior developers to review architectural decisions, improve performance, and refine user experience.

EDUCATION

An-Najah National University — Bachelor's in Computer Engineering

Sep 2019 - Jul 2024 | Nablus, Palestine

SKILLS

Programming & Markup:

JavaScript (ES6+), TypeScript, C++, HTML5, CSS3.

Frameworks & Libraries:

ReactJS, Next.js, Material-UI, TailwindCSS, Shadcn, Redux, Context API, Cypress.

Backend & Platforms:

Node.js, Express, MongoDB (basic), GraphQL (learning), AWS (familiar with core services).

Tools & Practices:

Git, REST APIs, Real-time communication (SignalR), Agile development, UI testing (Cypress, Jest), OOP, Data Structures & Algorithms.

AI-Assisted Development: Opencode, Claude CLI, MCP workflows, context engineering.

AWARDS

2nd Place at Innovators Hackathon. [LinkedIn Post](#).

LANGUAGES

Arabic: Native

English: Very Good
